Subject: FW: Urgent Need for Activation Date Extension for RCs
Importance: High

2007-235-C

Hello Jim,

As per our conversation last week, we have been delayed in launching the Rate Centers listed below due to our interconnecting companies. Getting the trunking in place has proven to be surprisingly difficult. Our looming expiration date for these RCs is in July and although we are optimistic that we will launch by early part of July, we will not have enough time to install customers by the expiration dates. Can we please have your maximum available extension so that we may be able to offer Digital Phone in these areas and take in subscribers? Your assistance is greatly appreciated.

Our OCN is 582C.

State	RATE CENTER	NPA	NXX	DN-START	DN-END	LERG DATE
